Profile

Information Technology Institute (ITI) graduate with a civil engineering background majored in construction and engineering management, proficient in utilizing tools such as React, Angular, Node.js, Express, and MongoDB.

Internships

1/7/2023 – Present	Intensive Code Camp (ICC) - **Full Stack Web Development using MERN** - Information Technology Institute (ITI).

Work Experience

08/12/2022 – 30/06/2023	**Contracts Engineer (Full time)** at Concord for Engineering and Contracting in **Head office.**
13/10/2021 – 01/12/2022	**Junior Tendering and Contracts Engineer (Part time)** at T.H.E ARCHITECTURE, PLANNERS AND CIVIL ENGINEERS INC. in **Head office.**
01/08/2021 – 12/10/2021	**Junior Tendering and Contracts Engineer (Full time)** at T.H.E ARCHITECTURE, PLANNERS AND CIVIL ENGINEERS INC. in **Head office.**

Education

B.Sc. in Civil Engineering, July 2021**, Cairo University** – Credit Hours System, Giza, Egypt.
- Major: Construction Engineering & Management **(CEM).**
- 9th on the dean's board with Cumulative GPA of 3.**72/4.00** (Excellent).
- Graduation Project Grade: (A).

Technical skills

- Frontend: HTML5, CSS3, Bootstrap, JavaScript, TypeScript, Angular and React.js
- Backend: Nodejs and Express.js
- Database: MongoDB
- Others: Object Oriented Programming and Version Control

Courses and Certificates

31-08-2023	**Introduction to MongoDB** from **MongoDB University.**
05/05/2021 - 03/08/2021	**Data Analysis Advanced track's scholarship** from **MCIT / Udacity.**
02/03/2021 - 27/04/2021	**Data Analysis Professional track's scholarship** from **MCIT/ Udacity.**
16/10/2018	**Intermediate 4 (General English Programme)** at **British council.**
05/09/2018	**Intermediate 3 (General English Programme)** at **British council.**

Projects

- **Dental Lab, [ITI Graduation Project]**
  - **Live Project**:
    - Lab Module: https://dentech-seven.vercel.app/
    - Client Module: https://den-tech.vercel.app/
  - **Frontend Repository**:
    - Lab Module: https://github.com/Mohamed-Gamal-2/Dentech-LabModule
    - Client Module: https://github.com/Mohamed-Gamal-2/Dentech-ClientModule
  - **Backend Repository**: https://github.com/Mohamed-Gamal-2/Dentech-Backend
  - **Overview**: Full stack project, aim to design an advanced dental Lab system with a user-friendly interface, designed for internal staff to streamline job order creation and management, enhancing overall operational efficiency. Designed to streamline communication and order management between dentists and labs.
  - **Technologies**: Angular (for the lab module), React.js (for the client module), Tailwind, HTML, CSS, Node.js, Express.js, TypeScript
- **Task App**
  - **Live Project**: https://tasks-app-gilt.vercel.app/
  - **Frontend Repository**: https://github.com/Mohamed-Gamal-2/TasksApp-Fullstack
  - **Backend Repository**: https://github.com/Mohamed-Gamal-2/Task-App
  - **Overview**: Task Management App, aims to streamline the communication between team member.
  - **Technologies**: React.js, React Query, Fromik, Axios, Yup, Context, Redux, Bootstrap, CSS, Node.js and Express.js
- **Movie Rush App**
  - **Live Project**: https://movie-rush.vercel.app/home
  - **Repository**: https://github.com/Mohamed-Gamal-2/Movie-Rush
  - **Overview**: Movie and TV shows platform that you can search for the desired movies or TV shows, see their details and save them for later watch.
  - **Technologies**: Angular, Bootstrap, HTML, CSS and TypeScript.

Languages: Arabic (native), English (Excellent).

Additional information

- **Military service status**: Completed.
- **Date of birth**: 15/6/1998
